Page 74 Ex 1

The OLM
The **1** tiny olm only weighs 20 grams. This **2** unusual creature has got eyes but it can't see. It can live to be 100 years old, and it can live for up to ten years without food. Now that's **3** amazing !

The DUGONG
The dugong is around three metres long and it weighs around 400 kilos. It is a **4** huge animal, but it isn't **5** dangerous to people. The dugong only eats plants. In fact, some people call this **6** interesting animal a sea cow.
